KEMCO SYSTEMS ANNOUNCES

April 2, 2018 | Clearwater, FL | Kemco Systems, Co. LLC, a global water and energy technology company, recently announced three key hires to their Engineering Department.

Automation Engineer, Tyler O'Grady joins the team with over 23 years of experience in manufacturing, automation, programming, and design. Tyler was in the U.S. Army Reserve and graduated from the University of Missouri, Rolla.

Process Engineer, Brian Martin joins our team with over 10 years of applications and process engineering experience. With a focus around microfiltration and reverse osmosis technologies, Brian is excited to start work with our wastewater systems. Brian is a native of Florida and graduated from the University of South Florida with a BS in Chemical Engineering.

Project Engineer, Al Mitrovic joins the team with 4 years water/wastewater treatment experience in a variety of projects including refineries, desalination and power plants. Al is looking forward to channeling his passion further into the water/wastewater treatment industry with Kemco. Al graduated from the University of Florida with a BS in Mechanical Engineering.

About Kemco Systems, Co. LLC

Since 1969, Kemco has delivered over 5,000 systems worldwide for industrial water reuse/recycle, wastewater treatment, hot water heating, wastewater heat recovery, flue gas heat recovery, vapor/steam curing and conditioning, and total system monitoring. Built for the most challenging conditions, Kemco's systems are built to the highest standards of excellence, offering exceptional reliability, outstanding quality and top value for its client's energy dollar.

Inquiries and question about Kemco should be sent to:

Eisa Sawyer, Marketing Director
