

GW2 Low PH Membrane Cleaner

Scale Free GW2 is a concentrated, blended organic low PH membrane cleaner designed to remove metal oxides and scale by converting solids back into dissolved ions. GW2 has dispersant polymeric ingredients to help capture small suspended solids and fluidize them so they are removed safely from the membrane.

Advantages

- Maintains superior membrane surface cleanliness
- Minimizes membrane cleaning requirements
- Extends membrane service life
- Removes metal oxides and hardness scales
- Controls iron, silica, and mineral scale
- Compatible with RO, NF, UF, and MF membranes
- Improves permeate quality by maintaining cleaner membrane surfaces
- Certified under ANSI/NSF Standard 60 for drinking water production

Application: Scale Free GW2 is intended to be injected upstream of the high pressure pump. If frozen, it may be thawed and gently mixed before use.

Shelf life is 12 to 24 months, depending on the storage environment and exposure to freezing.

Dosing: Please contact Scale Free for appropriate injection rates for your system.

Dilution: While this product is designed for neat injection, dilution is acceptable with demineralized or permeate quality water.

Specifications

| | |
|------------------|------------|
| pH | 1.0 - 2.0 |
| Specific Gravity | 1.05 - 1.1 |

Odorless Clear Liquid

Packaging

| Available | Weight |
|---------------|------------|
| 5 gal . Pail | 46 lbs. |
| 55 gal Drum | 504 lbs. |
| IBC's (totes) | 2,522 lbs. |

NSF/ANSI Standard 60: Drinking Water Treatment Chemicals - Health effects in the naturally recognized health effects standard for chemicals which are used to treat drinking water.

Certified to NSF/ANSI/CAN 60
