

SSK1

Deposit Inhibitor & Removal

Scale Free SSK1 is a concentrated liquid product used for maintaining cooling system waterside cleanliness. It can also be used for chill and hot water heating closed loop systems to maintain waterside cleanliness.

Advantages

- Minimizes water side scale and TSS deposits in water systems
- It will remove most existing deposits in cooling water systems or closed loop water systems
- Helps minimize corrosion by maintaining clean water sides
- Lowers operating and capital costs

Application: Scale Free SSK1 is intended to be injected into the cooling water line, or directly into the tower sump. If frozen, it may be thawed and gently mixed before use.

Shelf life is 12 to 24 months, depending on the storage environment and exposure to freezing.

Dosing: Please contact Scale Free for appropriate injection rates for your system.

Dilution: This product is designed for neat injection.

Specifications

pH	6.0 - 7.4
Specific Gravity	1.0 - 1.05

Clear amber liquid with slight odor.

Packaging

Available	Weight
5 gal . Pail	42 lbs.
55 gal Drum	462 lbs.
IBC's (totes)	2,100 lbs.

NSF/ANSI Standard 60: Drinking Water Treatment Chemicals - Health effects in the naturally recognized health effects standard for chemicals which are used to treat drinking water.

Certified to NSF/ANSI/CAN 60
