

BURNER EXCHANGE PROGRAM

Unplanned heater downtime can cost your operation thousands of dollars per day. Keeping your Direct Contact Water Heater running smoothly is critical to maintaining plant production. A single service visit can boost burner efficiency by 45%, while reducing emissions to help meet your environmental and compliance goals. Stay prepared for unforeseen challenges and maintain operational efficiency with Kemco's Burner Exchange Program.

SERVICE	BURNER EXCHANGE (FULL SERVICE)
MAX ON-SITE TIME	Up to 3 days (Weekend included*)
Combustion, Safety, Calibration, Reporting (Details Service Performed)	✓
Burner Pull and Internal Inspection	✓
Discharge Sleeve Replacement	✓
Control Component Labor	✓

BENEFITS OF THE BURNER EXCHANGE PROGRAM

Avoid costly
shutdowns

Maintain consistent
heating efficiency

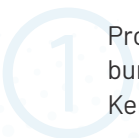

Avoid rental units
if burner goes down

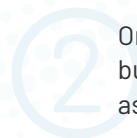

Have a backup
burner on hand

HOW THE PROGRAM WORKS

Program members receive a new burner and return their used burner to Kemco for servicing and/or rebuilding.

Once service is performed, the burner is sent back to the customer as a backup.
